

PostGUARD

A letterbox is a necessary evil - You need it to receive mail but it can leave your property vulnerable to burglary.

Most solutions to this problem are large, unsightly metal boxes which can obstruct the door from fully opening and resulting in large items of post being bent, damaged or just left outside.

PostGUARD's patented design allows all types of mail to be accepted and significantly improves the security of your property.

Manufactured from the highest quality materials, **PostGUARD** can be fitted to almost any door in a matter of minutes.

PostGUARD is a simple, elegant and effective ways to improve home safety against burglary and protect your post

items without bending

Double zip puller
that can be locked

- PostGUARD** is the simple and effective way to improve the security of your mail and your premises
- **Security** Mail is kept out of sight, not on the floor where it is a clear indication to burglars that no one is in.
 - **Lockable** The letterbox can be securely locked closed when required. In addition the mailbag can be secured with a padlock to prevent any unauthorised access to your post. This is particularly useful in preventing identity fraud or the theft of money or cheques in the mail.
 - **Convenient** The post can be retrieved easily without bending down to the floor, particularly helpful to those with mobility problems and wheelchair users.
 - **Large Capacity** Accepts bulky items such as newspapers, magazines and even telephone directories.
 - **Easy Installation** Easily fitted in minutes to almost any door, including uPVC using simple tools. Postguard can also be removed and re-used just as simply.
 - **PostGUARD - Has a unique lockable letterplate, enables you to secure entry via the front door -Helping you to achieve the Government's targets for the "Fear of Crime Initiative"**

PostGUARD's effective, elegant design allows all types of mail to be accepted and significantly improves the security of your property.

PostGUARD completely prevents burglars from using the letterbox to steal keys or unlock the door

PostGUARD is also effective in protecting your post and newspapers from problem pets or young children.
